CONFEDERAÇÃO DO DESPORTO DE PORTUGAL

Two thousand and twenty one was for the humanity in general an atypical year in which almost all the projects and dreams had to be at least postponed if not even canceled. We were surprisingly beaten by a pandemic like it happen from time to time during the dark ages to our ancestors when science and above all medicine were still mislead with alchemist! Nowadays in spite of all the scientific development reached we were taken by surprise and got stuck albeit even almost beaten by a virus!

So like it has happen worldwide almost all our activities which were mainly targeted to work at school level were canceled once since March 2020 schools were closed for large periods and while open only the unavoidable activities were allowed.

As leaders of the fight for fair play in sport in Portugal the Portuguese Sport Confederation was able to organize a contest on sports ethics. Three hundred seventy eight schools participate, including some situated inside the prisons. The contest was part of our National Ethics Work Plan.

The European Fair Play Flame Award was presented to Dinis Pereira Paulo, a Futsal player. Due to the pandemic the 2021 Portuguese Sports Gala was canceled but the best athletes of 2020 were awarded on a open air ceremony held in March at the National Stadium. The presentation of the EFPM was included in the ceremony and it was presented to Dinis by the Secretary of State for Sport .
